Declaration of Financial Interests

It is a policy of the Conservative delegation that members should include a statement of the staff they employ as part of their Members' Interests statement. I regard this as inappropriate, as I do not accept that staff arrangements are "Members' Interests". However a full transparency statement, containing more information than required by the delegation, appears on my website at <http://www.rogerhelmer.com/transparencystatement.asp>.

Re. Declaration of financial interests

My declaration of financial interests is as follows: I have no financial interests to declare.

I will however, be submitting a statement relating to my members of staff. I do not personally regard this as a Members' interests matter, but I will submit it on the instructions of the Conservative delegation.

Yours sincerely,

ROGER HELMER MEP
