As a legislator on automotive matters, Chairman of the Forum for the Automobile and Society, and the only MEP from the UK invited to join the High Level Working Group on the Future of the European Automotive Industry, it helps my role to appraise the car industry's latest products. These appraisals are declared as sponsored activities.

My supplementary declaration also includes visits where travel or accommodation was sponsored by a company or organisation. It does not include visits that were funded by my normal Parliamentary allowances. In 2006, in my role as Vice President of the Parliament's Science and Technology Assessment Panel (STOA), I attended the Global Science and Society Forum in Kyoto, Japan and the UN sponsored Global Internet Governance Forum in Athens.
